

PEL Topics Index

<h2>Emacs Reference Cards</h2> <p>👉 With PEL you can access these via the <code><f11> ? e r</code> key sequence. See 🔗 Help/Info</p>		These are links to the PDF version of official English version of the quick reference cards for GNU Emacs and popular external packages. PEL documents Emacs key bindings as well, these cards provide useful complement to what PEL provides.

<h2>XRef - Cross Reference Tools</h2>		Emacs supports various cross reference mechanisms described in the 🔗 Xref table. These mechanisms take advantage of various external tools and integrate with them. Notes about those tools are available in the tables listed in this section. 🚧 This is work in progress.			
See also: 🔗 Xref	 Xref-Support	 Xref-Backend			
PEL supports installation and partial setup of the following tools: ➡	PEL has support for several build tools but they are not all documented in a page. <ul style="list-style-type: none">• Nix 📦 Requires nix-mode external package 🔗 activated when pel-use-nix-mode user-option is tuned on.• Tup 📦 Requires tup-mode external package 🔗 activated when pel-use-tup user-option is tuned on.
