

PEL Topics Index

Last updated on:2025-11-07

Note: with PEL; type <f11> <f1> to open this PDF index.

Emacs Reference Cards

• Emacs Release History

• EmacsWiki

Links to PDF version of official English version of the quick reference cards for GNU Emacs and popular external packages.

👉 With PEL, access these PDF cards from within Emacs with the <f11> ? e r key sequence. See ℥ Help/Info for more info.

➤ PEL Overview

- PEL repo
- PEL Readme
- PEL Manual
- PEL NEWS👉
- Discussions

• PEL license

• Emacs Mailing Lists

• Emacs project repo

• Contribute to Emacs

This table holds links to all other PEL topic oriented PDF table files (hosted on Github).

👉 For the best user experience, use a browser that can render PDF directly instead of downloading: all PDFs are heavily hyperlinked.

- Mozilla Firefox (version > 78) does that perfectly. You may need to activate a plug-in for other browsers.

👉 From within Emacs open this topic index PDF by typing the <f11> ? <f1> key sequence. More help topics with <f11> ? p keys.

👉 The symbols, colour coding and various other conventions are described in the >Legend PDF.

Terminal Multiplexers: GNU screen , Tmux

Command Line Scripting Languages: bash, sh, zsh

👉 GNU readline, ls -l, ssh

℥ Emacs Manual , Guided Tour of Emacs , Emacs Lisp Manual

• Emacs Docs: Emacs, Emacs Lisp

• Mastering Emacs, Awesome-Emacs

• MELPA and GNU ELPA

The tables listed at right describe Emacs commands & key bindings for concepts & features. The cell is light-blue for major mode, light-red for minor mode specific concepts. Grey cells are links into other pages for important concepts.

Emacs commands can be executed by name or bound to key sequences. They describe the commands, their arguments and the key sequences bound to them.

• Emacs Keys

• Numeric Arguments

You can also:

• Run Command by Name

Emacs uses a concept of modes:

• Emacs Major and Minor Modes

- Major Modes
- Minor Modes
- Choosing Modes

PEL provides several key sequences to toggle minor modes.
