PEL Quick Access Topics Index

Last updated on: 2026-08-21 — **Sections Help** — Inside Emacs with PEL; type `<f11> <f1>` to open this PDF index.

GNU Emacs Reference Cards

- Emacs Release History
- EmacsWiki
- Emacs project repo

With PEL, access these PDF cards from within Emacs with the `<f11> ? e r` key sequence. See Help/Info for more info.

Emacs	Calc	Gnus	Magit Cheatsheet	Org	Viper
Emacs survival card	Dired	Gnus booklet	Magit Ref-card		VIP

➢ PEL repo

- Readme
- License
- Manual
- NEWS
- Discussions
- Contribute to Emacs
- Mailing Lists
- EmacsConf

This table holds links to all other **PEL topic oriented PDF table files** (hosted on Github Pages).
☝ From within Emacs open this topic index PDF by typing the `<f11> ? <f1>` key sequence. More help topics with `<f11> ? p` keys.
☝ The symbols, **colour coding** and various other conventions are described in the ➢Legend PDF.

Terminal Multiplexers: GNU screen, Tmux
Command Line Scripting Languages: bash, sh, zsh
GNU readline, ls -l, ssh

General Info ➢	➢Legend	➢Recommended Emacs User Option	➢Themes	Migrate from CRiSP	- Emacs startup
Startup ➢		Run Emacs daemon & clients	iMenu/Speedbar support		
PEL Code ➢	How to do it with PEL	PEL Naming Conventions	PEL Environment Variables		PEL utilities

OS Desktop Key Bindings

(Bindings that don't clash with PEL)

macOS Fct Keys	macOS Keys	Mint 20 Desktop Keys	Ubuntu 16.04 Desktop Keys
	terminal settings	Rocky Linux 8 Desktop Keys	

Feature Comparisons

Completion Modes Compatibility	Speedbar/iMenu Mode Compatibility	Shells/Terminals Comparisons

Prefix/Suffix & Numeric Arg Keys

Modifier Keys	Numkeypad	Keys - Fn	Keys - F11	Keys - F12	➢PEL

Emacs Features

- Emacs Manual, Guided Tour of Emacs, Emacs Lisp Manual
- Emacs Docs: Emacs, Emacs Lisp
- Mastering Emacs, Awesome-Emacs
- MELPA and GNU ELPA

The tables at right describe Emacs concepts/ features commands & key bindings. Cell background is light-blue for major mode, light-red for minor mode specifics, grey for links to sections of other tables. Cells link titles starting with are Emacs generic features, blue links are external packages. The green links are mostly PEL extensions. Emacs commands can be executed by name or bound to key sequences. They describe the commands, their arguments and the key sequences bound to them.

- Emacs Keys and Numeric Arguments

You can also: Run Command by Name

Emacs uses a concept of modes:

- Emacs Major and Minor Modes
  - Major Modes
  - Minor Modes
  - Choosing Modes

PEL provides several key sequences to toggle minor modes dynamically.

1979 EMACS Intro memo by R.M. Stallman
