PEL Topics Index

PEL Topics Index								
		Last updated on:	2025-10-19	Note: with PEL; type <f11> <f1> to open this PDF index.</f1></f11>				
Emacs Reference Cards		Links to PDF version of official English version of the quick reference cards for GNU Emacs and popular external packages.					ages.	
Emacs Release History		With PEL, access the	ese PDF cards from with	nin Emacs with the <f11></f11>	> ? e r key sequence	. See <u>ℤ Help/Info</u> for n	nore info.	
• EmacsWiki		<u>Emacs</u>	Calc	Gnus	Magit Cheatsheet	Org	Viper	
		Emacs survival card	Dired	Gnus booklet	Magit Ref-card		VIP	
PEL Overview PEL repo PEL Readme PEL Manual PEL NEWS Discussions PEL license Emacs Mailing Lists Emacs project repo Contribute to Emacs		This table holds links to all other PEL topic oriented PDF table files (hosted on Github). Solution For the best user experience, use a browser that can render PDF directly instead of downloading: all PDFs are heavily hyperlinked. Mozilla Firefox (version > 78) does that perfectly. You may need to activate a plug-in for other browsers. From within Emacs open this topic index PDF by typing the <f11> ? <f1> key sequence. More help topics with <f11> ? p keys. The symbols, colour coding and various other conventions are described in the ▶Legend PDF.</f11></f1></f11>

Programming Languages Main Paradigm of Programming Languages • Actor Model: Array • Concatenative Concurrent: • Domain Specific • Dynamic Extensible • Functional: Pure: • Generic • Imperative: or no token • Object Oriented Procedural • Has Syntactic Macros: • Multi-paradigm Reflective • System Level • The programming languages supported by PEL are listed here in alphabetical order. • Emacs (and PEL) also provides basic support for some of the one PEL does not support and for other programming languages not listed here.		Emacs has major mode support for several programming languages. PEL extends Emacs support for some of them (others are marked 🚧).
