PEL repo PEL Readme PEL Manual	This table holds links to the PEL tables. Each cell holds a hyperlink to the GitHub hosted raw PDF table. For the best user experience, use a browser that can render PDF directly instead of downloading. Firefox does that. You may need to activate a plug-in for other browsers. With that in place, you can browse through all the PDFs quickly and reach a vast amount of information. From within Emacs open this topic index PDF by typing the <f11>? <f1>key sequence. The symbols, colour coding and various other conventions are described in the <u>Legend</u> PDF.</f1></f11>
