PEL Overview PEL repo PEL Readme PEL Manual PEL NEWS Discussions	This table holds links to the PEL file tables. Each cell holds a hyperlink to the GitHub hosted raw PDF table. For the best user experience, use a browser that can render PDF directly instead of downloading. Mozilla Firefox (version > 78) does that perfectly. You may need to activate a plug-in for other browsers. With that in place, you can browse through all the PDFs and reach a vast amount of information quickly. From within Emacs open this topic index PDF by typing the <f11>? <f1> key sequence. More help topics with <f11>? p keys. The symbols, colour coding and various other conventions are described in the >Legend PDF.</f11></f1></f11>
